TWO MILLION MEN SHIRKING MILITARY DUTY IN ENGLAND

Earl of Derby's Figures Show That Number are Not Offering Aid.

CONSCRIPTION A BIG ISSUE

Parliament Meets With Cabinet Crisis; Nationalists in Minority; The Question of Military Service is Being Discussed.

LONDON, Jan. 5.—The House of Commons met today to discuss the question of military service. The Earl of Derby, leader of the Nationalists, made a statement in which he declared that two million men in England were shirking their military duty. He said that the Government was not doing enough to enforce the law, and that the Nationalists were in a minority in the House.

The Earl of Derby's statement was met with a sharp reply from the Government. The Prime Minister, Mr. Lloyd George, said that the Government was doing all that it could to enforce the law, and that the Nationalists were in a minority in the House.

The question of military service is a very important one in England at the present time. The Government is trying to get more men into the army, but the Nationalists are opposing this.

The Earl of Derby's statement was a surprise to many people. He said that two million men were shirking their duty, but the Government says that only a few thousand are.

The House of Commons will meet again tomorrow to continue the discussion of military service.

LONG FIGHT ON PREPAREDNESS IS BEING PREDICTED

May Be Three Months Before Congress Decides on Its Program.

CONFLICTING VIEWS DEVELOP

WASHINGTON, Jan. 5.—Without any delay the House of Representatives today got down to active discussion of the question of national defense. The first important step in this direction was the beginning of hearings today before the House Naval Affairs Committee.

The House Military Affairs Committee, after holding a preliminary meeting today, is expected to follow this up by taking up the army appropriation bill. Then the preparedness bill will be on in earnest.

Both committees will begin their work with the prospect before them of spending more time and consideration over army and navy appropriation bills than ever has been spent over similar bills at any time in the past.

The line of cleavage between those who favor large increases in both army and navy, and those who would have no increase or would make only a small one, is expected to be shown very soon after the hearings on the army bill.

Representative Edwards, a Georgia Democrat, offered a resolution yesterday to have the President call a special session of Congress to deal with the question of national defense.

Representative Miller, a Minnesota Republican, introduced a bill today to appropriate \$12,000,000 to construct a new fleet of battleships.

Representative Miller also introduced a bill today to appropriate \$10,000,000 to construct a new fleet of battleships.

GRAIN SHIPMENTS MOVE MORE FREELY FROM THE SEABOARD

Embargoes Still in Effect,
but Export Cargoes
are Sailing.

A KICK FROM SMITHFIELD

Travelers on the Baltimore & Ohio
Wash. Station Platform Changed;
Penn. Passes 1916 Passes to Its
Employees; Other News of the Rail

Some relief in the grain situation is being given at the shipping ports on the Atlantic seaboard, where vessels are taking big loads. The embargo on grain is still in effect but there is much less congestion at the ports.

The Western Maryland is the latest to declare an embargo on grain, which went into effect on January 3. The embargo affects all shipments of grain for domestic or export purposes from any station in Baltimore, including the Port Covington elevator. The order means that the new elevator on the water front, opened less than a year ago and valued at a cost of \$700,000 to the Western Maryland, is practically useless as far as relieving the congestion is concerned.

According to figures available there is at present 1,314,021 bushels of grain in the elevators, which is a considerably larger amount than at any time in the past months. Although conditions in the other railroads have been also as acute it is expected that from now on there will be a great deal of relief, on account of the activity of the vessels in the ports.

PENNSY PASSES OUT.
The annual passes of the Pennsylvania railroad are being distributed to the employees of the road for the year 1916. Pennsy passes are similar in way to those of other roads, different passes being issued to the men, depending on the number of years that have been spent in the employ of the company.

In addition to the passes for long service employees, division superintendents are issuing annual passes to employees whose work requires much traveling. Main line passes are given out from the general superintendent's office. In addition to the employee, his wife is allowed to use the pass over certain portions of the road.

RUSHING TURNABLE.
After having his gang divided between two jobs in the Baltimore & Ohio yards, one man working on the turntable over Trump run and another on the turntable, B. F. Lincoln has united the forces at the turntable, rushing the work as rapidly as possible. A large force of negroes and foreign ditch diggers are excavating

NERVOUS WOMEN

Are troubled with the "blues," anxiety, sleeplessness, and wanderings of mind and distress are seen by the nerves like flying messengers throughout body and mind. Such feelings may or may not be accompanied by backache or headache or nervousness. The local physician should be consulted. If there be any, should be treated with Dr. Pierce's Pink Pills. Then the nervous system and the entire body make-up feels the tonic effect of Dr. Pierce's Favorite Prescription. Take this in tablet or liquid form and be a well woman.

Cartledge, Pa.—When I needed to be built up and get strong I used Dr. Pierce's Favorite Prescription. It was in a nervous and run-down condition. I took it for a period of six months and at the end of the treatment was much stronger and better.—Miss Anna E. Cartledge, 99 E. North St.

Many mothers of families in Pennsylvania have reason to be grateful to the person who recommended Dr. Pierce's Favorite Prescription. It is put up for the single purpose of curing diseases peculiar to women. Another point in its favor: It is a temperance remedy and does not contain a single drop of alcohol or of any narcotic. Its ingredients are printed on the wrapper. It banishes pain, headache, backache, low spirits, bad humors, dragging down remembrance, worry and sleeplessness, surely and without loss of time.

Why should any woman continue to worry, to lead a miserable existence, when certain help is at hand?

What Doctor Pierce's Favorite Prescription has done for thousands it will do for you. Get it to-day!

The sluggish liver can be cured by the use of Dr. Pierce's Pleasant Pellets. Biliousness, coated tongue, bad breath, are all cleared up and banished by the use of these tiny sugar-coated granules—purely vegetable and harmless. They do not cause a habit.

OUCH! LUMBAGO PAIN! RUB BACKACHE AWAY

Instant Relief With a Small
Trial Bottle of Old
"St. Jacob's Oil."

Kidneys cause Backache? Not they have no nerves, therefore can not cause pain. Lumbago, sciatica or a strain, and the quickest relief is soothing, penetrating "St. Jacob's Oil." Rub it right on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacob's Oil" from your druggist and rub it up. A moment after it is applied you'll wonder what became of the lumbago or lumbago pain.

Rub old, honest "St. Jacob's Oil" whenever you have sciatica, neuralgia, rheumatism or sprains, as it is absolutely harmless and doesn't burn the skin.—Adv.

JOZEE LAW ENFORCED.
The Baltimore & Ohio railroad is putting into effect the law prohibiting the carrying of liquor into the state of West Virginia. The law went into effect Monday and since then the railroads have not allowed passengers to carry the containers.

The first arrest in the case of violation of the law was made Monday evening when two men attempted to carry liquor into the state without labeling their containers. Many of the stations along the Baltimore & Ohio railroad are beginning to look like storage rooms. When the liquor is put off at a station where there is an agent, the station prohibition committee is notified and he makes the disposition of it. During December, 4,100 round trip tickets and 100 one way tickets were sold at Morgantown, the Point Marion, the closest point over the Pennsylvania line.

WANT TRACK MOVED.
The town council of Smithfield, at a recent meeting appointed a committee to meet the officials of the Baltimore & Ohio railroad with reference to moving the main line and the station to the station at that place. The council contends that the method for getting to the station is not safe and that after a passenger does get there, he is exposed to the weather without any kind of a shelter.

At Smithfield, the council contends, the passengers are often in danger as they have to cross a siding that lies between the main line and the station. After buying tickets this track has to be crossed to an unsheltered platform. Some passengers have had narrow escapes on the switch, and the local officials will not do this at least build a shelter over the platform.

HEADLIGHT FLASHES.

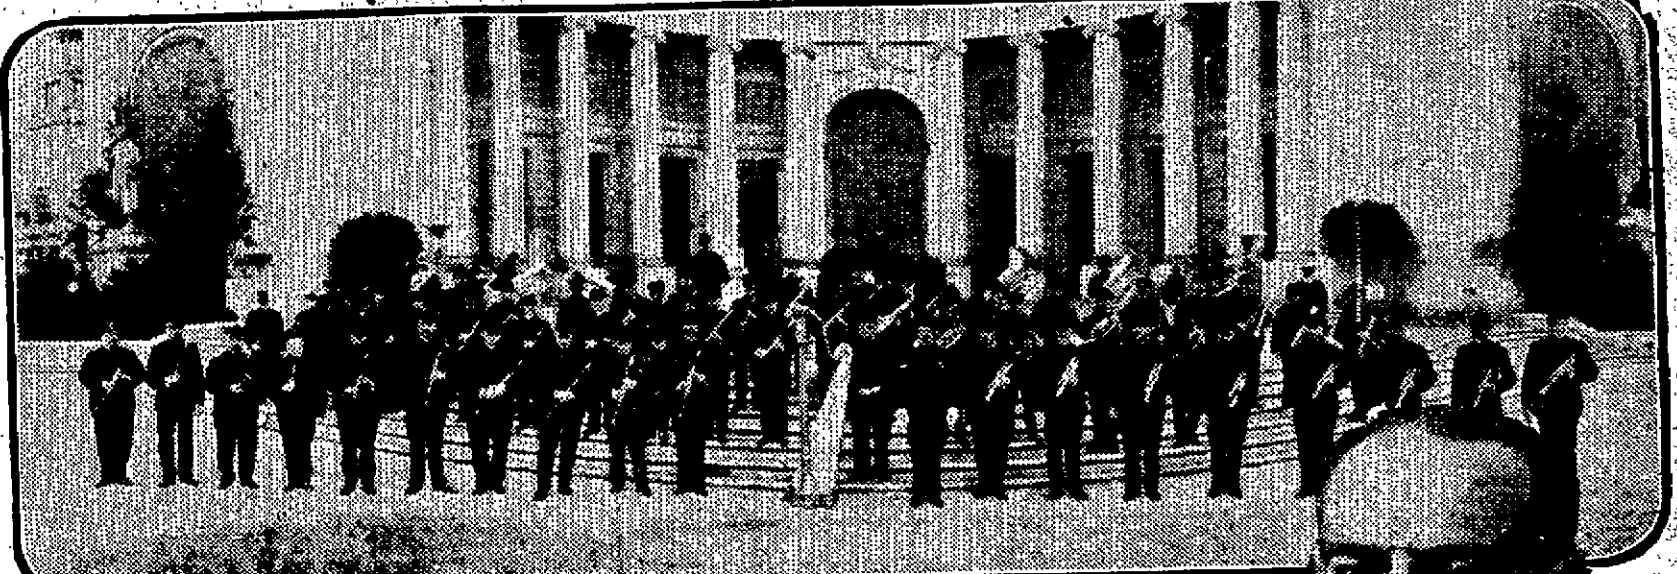

Announcement has been made of the appointment of C. W. Calder as master or builder for the Baltimore & Ohio between Philadelphia and Wheeling. He succeeds E. B. Miller. He has held the position of assistant master or builder for several years and is known among local railroaders.

A. F. Summy, clerk and stenographer in the engineering office of the Baltimore & Ohio railroad at Uniontown, has been promoted to a similar position in the Pittsburgh office. He left Uniontown and entered on his new station Monday. He had been at Uniontown several years. No successor has as yet been appointed.

A campaign has been commenced by the Baltimore & Ohio railroad Y. M. C. A. at Cumberland for 1,000 new members. The contest will begin on January 21, and will last ten days. Committees including about 30 men have been appointed and all arrangements for the campaign completed.

August Yager, employed as a trackman of the Cumberland and Pennsylvania, was badly hurt yesterday by being struck by a lever.

Railroad employees are at Washington, D. C., preparing for a campaign for a federal law regulating the hours of labor for engineers, firemen, conductors, brakemen, and others engaged in operation of trains.

The Most Wonderful Endorsement Ever Given Any Product

John Philip Sousa and his famous Band have circled the globe on numerous tours and inspired millions of people in many lands with their soul-stirring, inimitable music.

Mr. Sousa has been a smoker of Tuxedo Tobacco for years. Recently, at the Panama-Pacific Exposition, a newspaper representative made the discovery that every member of Sousa's Band is also a Tuxedo smoker!

Whereupon, the following endorsement of Tuxedo was gladly given and signed by Mr. Sousa and the sixty-six members of his Band. Read it—as sure-fire and convincing as a Sousa March:

"All the vim, energy and enthusiasm we put into the playing of the 'Stars and Stripes Forever' we find in the steady use of TUXEDO." John Philip Sousa

The Habit of Taking Cold.

With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold sponge bath every morning when you first get out of bed—not too cold, but a temperature of about 90 degrees Fahrenheit. Also sleep with your windows up. Do this and you will seldom take cold. When you do take cold, take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable anywhere.—Adv.

Special to The Courier.
MOUNT PLEASANT, Jan. 5.—The
fiftieth wedding anniversary of Mr.
and Mrs. Robert Hood was celebrated
at their West Washington street home
yesterday, surrounded by their friends
and children. At 12:30 o'clock 75
guests were served with a six course
dinner. At the bride's table were Mr.
and Mrs. Robert Hood, Mrs. Kate
Trainer, Mrs. Sara Bouty, Mrs. Hitt-
man and daughter Alice, Rev. and Mrs.
William T. Lytle and Mr. and Mrs.
S. C. Stevenson. Four generations
were represented. The six grand-
children present were William Hood,
Mrs. Jeannette Parry, Mrs. George
Tetlow and her husband, Mrs. Mar-
garet Hinkle and her husband, Robert
Hood and wife, and Daniel Hood. The
grandchildren present were Sara Hood,
Margaret Hood, Roy Harmon, William
Almendo, Susan, Grace, Curtis and
Isabel Bliley. Gold and white deco-
rations were carried out throughout the
house. In the dining room, at the
bride's table, yellow streamers came
from each chandelier and were caught
at the corners of the table. The center-
pieces were made of narcissus.

Some very good vocal selections
were given by Mrs. Homer Craft of
Scottsdale, and some excellent instru-
mental music by R. K. Dawson of
Pittsburgh. Mr. Hood entertained his
friends during the afternoon with an
Irish jig and typical Irish songs.
Among the out of town guests
present were Mrs. Kate Trainer of
Brie, a sister of Mrs. Hood; Mrs. Sara
Healy of Ingram; Mrs. Robert Hood
and daughters, Sadie and Edith of
North Side, Pittsburgh; Mr. and Mrs.
George Hood of Brushport; George
White of Greensburg; Mrs. Arthur
Collins and Mrs. Homer Craft of
Scottsdale. Mr. and Mrs. Hood were
married in Allegheny in 1866 by Rev.
John McMillan. In 1877 Mr. and Mrs.
Hood came to this town and since that
time have made their home here.

Each guest was given bride's cake in
white boxes decorated in gold. Many
beautiful presents were received.
In the evening, at the armory, they
gave a dance for the younger set, at-
tended by about 125 persons from
Pittsburgh, Greensburg, Scottsdale, Con-
nellsville and this place. A buffet
lunch was served. Chamberlain's orchestra
furnished the music.

Robert G. Loe, structural and con-
crete engineer of the Carnegie Insti-
tute of Technology, Pittsburgh, was
here yesterday with Mr. Bartholomew,
the architect, went over the old
Kobacker building, recently destroyed
by fire, and found that several of the
iron beams must come out before re-
building. A contract will be let soon
and the Woolworth side will be finish-
ed first.

Jewish Relief Society at her home on
Monday afternoon.

WHY HAIR FALLS OUT

Dandruff causes a feverish irritation
of the scalp, the hair roots shrink,
loosen and then hair comes out fast.
To stop falling hair at once and rid the
scalp of every particle of dandruff, use
a 25-cent bottle of Dandruff at any
drug store, pour a little in your hand
and rub well into the scalp. After a
few applications all dandruff disap-
pears and the hair stops coming out.

"A house is not based upon
ground, but upon woman." is an old
Montenegro proverb. To her falls the
hard work of the household. They

American women should take more
care to preserve health and vitality

the three oldest tonics known in Vinol.

WHAT TO DO FOR ITCHING SKINS

Eczema, ringworm and other itching,
burning skin eruptions are so easily
made worse by improper treatment that
one has to be very careful. There is one
remedy, however, that you need not hesi-
tate to use, even on a baby's tender
skin—that is, the resinol treatment.
Resinol is the prescription of a Balti-
more doctor, put up in the form of res-
inol ointment and resinol soap. This
proved so remarkably successful that
thousands of other physicians have been
prescribing it constantly for 20 years.
Resinol stops itching instantly, and
almost always heals the eruption quick-
ly and at little cost. Resinol ointment
and resinol soap can be bought at any
druggist's.

CLEARs BLOTCHY SKIN
Try resinol soap for a week. You
will be surprised to see how it clears
and freshens your complexion, even in
the shortest time. Used for the sham-
poo, it removes dandruff and keeps the
hair alive, rich and lustrous. This is
because it contains the soothing, heal-
ing resinol medication.

Which man are you?

Are you the man with the headache and the scowl, or he with the glasses and the smile?

Properly fitted glasses often make just the difference between one of those persistent, nerve-racking headaches and the ease and comfort indicated by the smile.

The man with a headache and a scowl has an up hill job. He has not the "pinch" that goes with the smile. By my scientific, careful examination I can determine whether glasses will relieve your headaches.

It will only take a few minutes of your time and the result may surprise you.

CONGRESS BEGINS A PROBE OF THE GASOLINE PRICE

Two Investigations are Suggested When Congress Convenes.

HOUSE MEMBERS TAKE ACTION

One Resolution Asks Whether the Attorney General Has Done Anything; Second Asks Inquiry Into Hands of Interstate Commerce.

Special to The Courier. WASHINGTON, Jan. 5.—The rapidly increasing price of gasoline was brought to the attention of Congress immediately after it assembled today, when two investigations of the causes of the present prices were demanded in House resolutions.

Representative Stinson of Minnesota, offered a resolution calling upon the Attorney General to advise whether his department has undertaken the prosecution under the Sherman anti-trust law of those alleged to be responsible for the high price of the commodity.

Representative Fuller of Illinois, asked an inquiry by the House committee on interstate and foreign commerce. He suggests that the threatened internal revenue tax on gasoline gave the manufacturers and dealers in that commodity an idea of raising the price in advance of such a tax. The resolution says the producers of gasoline "have evidently been encouraged by such tax proposals to believe that an opportunity to levy tribute for their own personal benefit had been overlooked and they have in consequence more than doubled the price." This resolution directs the interstate commerce committee to ascertain whether conspiracies exist to bolster up the price of the product and if the laws of the United States are being violated.

Representative Stinson's resolution declares that it is alleged that unlawful conspiracies and combinations exist among wholesale and retail dealers in gasoline and petroleum products. He results the present price of such products as "unreasonable and extortionate," and says it is depressing industry in the United States.

The resolution directs the Attorney General to advise the House whether he has taken steps to prosecute any persons believed to have conspired to raise the price of gasoline. In the event no such proceedings have been begun under the anti-trust laws, Mr. Stinson asks for an explanation from the Department of Justice as to its failure to institute suits against the alleged conspirators.
